

Transcript: Paper Moths Project Diary | Watercolour Painting Workshops & PopUp Performance

Project by Marina Poppa and Jasmine Greaves with support from Callaloo Carnival Arts

[Esther]

Hi, I'm Esther and I took part in the Paper Moth project by helping out with the workshops and teaching little kids how to do more watercolour and using old books so you could give them a new life.

[Marina]

I'm Marina Poppa. Jasmine Greaves and myself have been supported by Heart Your Town from Kirklees Council and West Yorkshire Print Workshop to produce this Paper Moth project and today we've brought some actual giant, life-size carnival moths to animate the Paper Moth installations that are here in the shops and galleries and places in Mirfield.

[Alan]

Do you see that we're very tall, obviously very tall figures because we're on stilts we oversee things and so just to have that moko jumbie presence at something, especially at a Carnival, it's like well yes something special is gonna happen you know with we're taking this out of the ordinary, run-of-the-mill life and we're going to create something different. We created something special!
